Dear Greta

I am writing to you in order to express my support regarding your stand against climate change. Not in my wildest dreams did I ever imagine that a fifteen year old girl could undertake to solve such a thorny issue, which not even major governments seem to be able to tackle effectively. It must have been very scary for you to stand up and speak in front of so many people. I am a very shy person and seeing you do this makes me admire you a great deal. I wish I could be more like you.

In fact, having seen you on the news give interviews and talk so passionately about climate change inspired me to leap into action. I have taken part in the peaceful demonstrations in the streets of Athens which were organized by students my age, and I constantly try to persuade my parents, my siblings and my friends to be more environmentally aware. Also my friends and I have adopted a beach near where we live and every weekend we go there and pick up rubbish.

Thank you for helping me realize how important this issue is.

Best regards,

Alex

Τα θέματα φέτος είχαν εξαιρετικό ενδιαφέρον και ήταν μέτριας δυσκολίας.

Τα Α1 και Α2 (Κατανόηση Γραπτού Λόγου) ήταν αρκετά βατά με ελάχιστες δυσκολίες στο λεξιλόγιο για έναν υποψήφιο επιπέδου Β2-С1

Πηγή Α1: <https://www.tes.com/news/empathy-why-pupils-need-develop-it-more-ever>

Η Γλωσσική επίγνωση (Β1, Β2, Β3) περιείχε βατό λεξιλόγιο και τα αναμενόμενα γραμματικά φαινόμενα για έναν καλά προετοιμασμένο υποψήφιο. Στο ερώτημα 15. του Β2 πιθανώς να προβληματίσει επειδή συνήθως η σύντμηση (hadn't) λαμβάνεται συνήθως ως δύο λέξεις και όχι ως μια.

Πηγή Β3: <https://www.nationalgeographic.com/environment/2019/06/cities-climate-impact-consume-less/>

Η Παραγωγή Γραπτού Λόγου (Γ) περιείχε ένα εξαιρετικά βατό θέμα που θα θεωρήθηκε εύκολο από την πλειοψηφία των υποψηφίων.
